Tour series cables are the professional choice for most demanding applications in live events, broadcasting/TV and recording studios, having a high quality standard in terms of assembly and components.
Tour series is assembled using professional "made in Italy" cables, subject to a constant and careful quality control in every stage of manufacturing, and selected connectors from Neutrik. Tour cables are addressed to professionals requiring a high level of quality for employment in demanding environments, for this reason Tour cables are hand-made and then carefully tested.
Available in many different models, custom configurations are possible for specific requirements. Self-gripping velcro ties are included for each cable.
